THE WORD PUBLICATIONS

"SCRIPTURE REFERENCE SEARCH COMPANION"

INTRODUCTION

Brother Branham's focus on the Scriptures was such that as well as carefully transcribing and proofreading the sermon text, the dedicated and consecrated team at "The Word Publications" identified over 96,000 Bible references that he made during the 19 years of his recorded Ministry.

To make the originating verses easy to find, each reference has been individually annotated to the top right hand corner of the paragraph in which it was expressed. The references are remarkably extensive and involve over 7200 separate verses, each one being different from the others. They occupy a significant proportion of the transcribed sermon text and cover all but three books of the Bible. Given that the King James Version of the Bible contains just over 31,000 verses, Brother Branham's familiarity with and coverage of the Bible was both significant and comprehensive.

Beneath you will find three summaries that will help you locate verses that Brother Branham discussed or touched upon. The summaries provide an insight as to where he placed his emphasis over the years under the leadership of the Holy Ghost. To those already familiar with his Ministry, it will be no surprise to find that his most frequent Bible quote by far was Hebrews 13:8 which he drew our attention to no less than 2600 times.

> *"Jesus Christ the same yesterday, and today, and forever."*

The three summaries are entitled:

1. Scripture references – sorted by book
2. Scripture references – sorted by occurrences
3. Other Statistics

When using this file, we strongly advise that you always do so using a feature rich PDF viewing software such as PDF-XChange Viewer. This will enable you to conveniently navigate the extensive contents by means of the Bookmarks provided at the left hand side of the file and so make full use of the three summaries concluded herein.

Every effort has been made to find and record all the references that Brother Branham made to the Scriptures as completely as possible. However, in the event that an occasional reference has been overlooked, then should the user of this work wish to conduct an exhaustive study of all the references that Brother Branham made to a particular Bible verse or collection of verses, they are advised to additionally search the sermon text itself for words and/or phrases that could reveal whether or not other references were made to the target verse or verses.

SEARCHING THE SCRIPTURE REFERENCES

The following summary is included here for convenience. It has been extracted from the WPMS Instructions for Users file, which contains more extensive coverage of how to use The Word Publications Message Search package to best effect.

Find every reference to a particular book

Search term: S.1The*
Finds every reference made to the book known as "1Thessalonians."

Find every reference to a particular chapter

Search term: S.Roma2
Finds every reference made to chapter 2 of the Book of Romans.

Find every reference to a particular verse

Search term: S.John3;16
Finds every reference made to verse 16 of Chapter 3 in the Gospel of John.

IMPORTANT: Although it is common practice to use a colon (:) to separate a Bible verse from the chapter in which it is to be found, when using DocFetcher to search for references to a particular verse, as shown and highlighted above, the verse and its chapter must be separated by a semi colon (;) instead of a colon. Using a colon separator by mistake will result in no hits being returned.

Notes:

1. Searching for references made to books of the Bible or to particular verses is not case sensitive. Thus searching for "S.ROMA2;3" will yield results that are in every way equivalent to searching for "s.roma2;3".

2. Do not leave any spaces between the characters that make up the abbreviated Scripture references you enter into the Search Box. Doing so will cause your search to fail.

3. Searching for references to a specific verse will not find occasions where that same verse is included within a range of verses that precede and then extend to include the target verse. To

check whether the target verse was either referred to or included in separate grouping of verses, please refer to the accompanying “Scripture Reference Search Companion” file.

4. The accompanying “Scripture Reference Search Companion” file contains a complete list of all the references that have been inserted above the paragraphs of the text of Brother Branham’s Message, as well as the number of times that they each occur etc.

SCRIPTURE ABBREVIATIONS

The format of the Scripture Reference abbreviations entered above the paragraphs in the sermon text is as follows;

The Scripture References above use a system of abbreviations that are defined and prefixed by “S.” (without the parentheses,) followed as applicable, by the first three or the first four characters that are required to identify the book in which a given reference is to be found. For example, a reference to verse 1 of Psalm 23 would be abbreviated: S.Psal23:1. There is one exception to this rule: the book of Philemon has had to be represented by the first five letters of its name in order to distinguish it from the book of Philippians.

May God bless you abundantly as you make ready for the soon Coming of the Lord for His Bride and prayerfully study the Last Days Message of deliverance that was sent to us through Brother William Marrion Branham, God’s vindicated Prophet to the closing of the Gentile dispensation.
